

# TLC at the EGC

Express your stewardship of the community garden by volunteering a little or a lot of **TLC**. Here are some ways how you can help:

- Help pick up litter inside and outside the garden area and deposit it in the trash containers.
- Help turn the compost pile and keep the area tidy.
- Help keep the topsoil pile neat.
- Help sweep out the garden shed and port-o-potty when needed.
- Help keep hoses and other items in the garden shed organized and ready for use.
- Help remove weeds and rocks from garden plots that haven't been adopted.
- Help keep the garden common area free from weeds.
- Help keep the garden pathways mowed and free from weeds.
- Help stain the wood on the raised planters as needed.
- Help maintain the informational kiosk.
- Help plant, maintain, and harvest the Robin Hood Plot for those who are hungry and in need.
- Help water the Robin Hood Plot.
- Help water the flowers in the raised planters.
- Help your garden neighbors when they are out-of-town.
- Help in any other way that you can think of.
- Always wear a **smile!** 😊

Please describe your **TLC** by sharing your volunteer efforts in the EGCOOP journal that is located in the garden shed.

At the end of each garden season, the EGCOOP Committee will recognize the efforts of volunteers, and they will present **Garden Pride Certificates** to volunteers.

Questions? Please contact the City Planning and Development Department at 307-783-6470. **THANK YOU!**
